# EXPLANATION OF STOCK AND BOND TABLES.

1. Prices of the most Active Stocks and Honds are given in the "Banks' Gazette," previously. Full quotations of all other securities will be ers' Gazette," previously. found on preceding pages.

2. Government Securities, with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U.S. Debt statement published in The Chronicle on the first of each month

3. City Bonds, and Bank, Insurance, City Hallroad and Gas Stocks, with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.

4. The Complete Tables of State Securities, City Securities, and Bailroad and Miscellaneous Stocks and Bonds will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of The Chronicle.

## RAILROAD BONDS-DEFAULTS IN INTEREST.

There have unfortunately been a few defaults in interest since the first of January, on some of the less prominent railroad bonds, which have generally been noticed briefly in this column at the time they occurred. Subscribers frequently write us for information in regard to these and similar financial matters, and request an answer in the next CHRONICLE; this it is often impracticable for us to give, and it is desirable that all who write for information should give their real name and address, not for publication, but to enable us to respond to their inquiries by letter, in case no reply is made in THE CHRONICLE.

As to the St. Joseph and Denver City 1st mortgage 8 per cent gold bonds, negotiated in New York within the past year or two, and upon which default was made in the payment of the February interest, there is no further information to be obtained at present than that which has been given in THE CHRONICLE. We have previously stated that negotiations were pending for the transfer of the management of the property to the handa of sub. stantial parties, but that difficulties intervened to prevent the completion of the arrangement, and this, so far as we can ascertain, is the present situation of affairs. In this connection, we observe that the recent circular of a dealer in railroad bonds rather advises his customers to hold their bonds for the present.

As to the default made on the 1st instant on the 8 per cent gold bonds of the Mobile & Montgomery Railroad, the President issued a circular dated April 26, which may be presumed to contain the most complete information that bondholders can at present obtain. He sava:

We should have provided for this interest from the earnings of the road but for the reduced rates on both freights and passengers since July 1st, 1872, forced upon the company by adverse State legislation, and which has operated greatly to the injury of our company. I am happy to say, bowever, that this act has heen within the last ten days so amended as to authorize an increase of at least 25 per cent on present rates, and that this will, I am satisfied, so largely increase the income of the road as to put beyond all doubt the prompt payment of futare interest.

largely increase the income of the road as to put beyond all doubt the prompt payment of futare interest.

It is also proper to say that to strengthen the road, in view of projected lines, which if carried out would be active competitors for the business which he road should legitimately contrel, I some time since opened negotiatioos for the lease of the road to most responsible parties, by the terms of which the interest due May 1st and all future interest should be fully provided for. The lease, however, could not be perfected without special act of the Legislature; and although a proper bill was introduced early in January, it only became a law on the 16th inst. I at once came to New York to conclude the negotiations, but in the short time intervening before the 1st of May it was found impracticable to consummate the lease, but I am assured it will be arranged within less than sixty days, and the interest now maturing and all future interest be thus amply provided for.

As to the Southern Minnesota Railroad, which was noticed in the CHRONICLE of Nov. 16 and 23, 1872, on pages 657 and 691. there is little to be added at present. The road is under foreclosure proceedings in the U.S. Courts, and in due process of time will be noticed for sale, in case no arrangements should be perfected to take the company out of litigation by negotiations with substantial parties, of which some hope is now entertained. The receiver, Mr. Mcllrath, is a man highly esteemed in the State, and will do whatever can be done to protect the property, though he has had to contend against one of the worst winters ever known at the West, which for a time cut off the earnings almost entirely. From all that can be ascertained it would appear to be ill advised for bondholders to dispose of their securities for what they can get just now.

The Fort Wayne, Muncie & Cinn. Railiead was unable to pay the interest on its bonds, and in September, 1872, the directors addressed to the bondholders a circular in which they stated:

"The Traffic Agreement attached to \$1,000.000 First Mortgage and \$500,000 of Second Mortgage Bonds, by which forty per cent of the gross earnings from interchange of business with the Fort Wayne, Jackson & Saginsw, Jackson, Lansing & Saginsw, Ionia & Lansing, and the Michigan Central Railroad Companies, is to be devoted to the purchase of the bonds having said agreement attached, has diverted business from this road when controlled by the roads mentioned, and where souther route to Cincinnati, etc., could be found. This is a natural effect of such an agreement under existing circum-

stances. It is proposed that the holders of such bonds shall agree to cancel, in part or absolutely, this agreement, whenever suitable arrangements can be made with these connecting companies for the transaction of general business. A large proportion have stready agreed to do so whenever the Executive Committee of the Directors shall decide it to be for the interest of the company. With this agreement cancelled, and the disturbance in the lumber trade caused by the Chicago fire quieted, it is believed that the volume of foreign freight coming to the road will steadily increase, and become a source of profit."

And further, that in order to keep the present company organization and give the managers a chance to place the road on a good basis:

"It will be necessary to fund the coupons for four years; and therefore recommend the conversion of these coupons into their equivalent in preferred stock, thus following the precedent of other roads, which in their infance have been placed in a similar situation, and from like causes, and thereby protecting their securities, and so developing their business as to render their business and paying investments. The surrendered coupons simil, nevertheless, be held by the trustees, to be used, in case of necessity, for the protection and benefit of the original proprietors thereof or their assigns."

In the recont annual report for the year ending Dec. 31, 1872, the gross earnings are given at \$243,771; operating expenses (71.18 per cent) \$173,535; net receipts, \$70,236; out of which other expenses left \$14,313 cash balance. The President's report says of the plan above referred to, that a certain amount of bonds had been negotiated in Germany, and holders being unknown it has been difficult to communicate with them. Further means will be taken to place before these parties full information in regard to the improved condition of the property, &c. The American bondholders, so far as heard from, with inconsiderable exceptions, have approved and accepted the plan.

With this plan carried out, it is confidently anticipated, that, at the end of the four years, the road will be in a thoroughly good condition, making the bonds of the company a valuable, interestpaying, and safe security.

Other bonds upon which interest may be in default we shall notice bereafter.

Tennessee State Finances.—An important circular letter, issued by the Governor, contains the following:

Tenuessee State Finances.—An important circular letter, issued by the Governor, contains the following:

"Orders have been given for the engraving of the new bonds, and the necessary books are in course of preparation. We will certainly commence funding and registering as early as the first day of July next, perhaps sooner. Notice of the exact date will be given in due time. As to what bonds will be rejected, it is proper to state that those known as the Mineral Home Railroad bonds, anounting to \$100,000, and numbered as follows, to wit: From No. 9,851 to 9,865, and from 9,896 to 9,980, all of said numbers included, all being green bonds, without letter denoting series, and those known as the bonds of the Iosurance Company of the Valley of Virgioia, amounting to \$20,000, and numbered as follows, to wit: from 6,001 to 6,017 including both numbers, slso Nos. 6,440, 7,546, and 7,547, all of green issue—without letter denoting series—na well as the Tennessee Confederate war bonds, will be rejected. If there be any others that may not be registered or funded under the provisions of the funding act, their existence is not known at this department. And when it is considered that out of more than (\$13,000,000) thirteen millions retired since the early part of 1870, no such bond has been detected, the presumption is very strong that none such are in existence. The bonds and coupons presented will, bowever, be critically inspected, and if any are found to have were issued, they will be rejected.

"I see no necessity for an extra session of the General Assembly. I believe the assessment act now in force, will develop a largely increased amount of taxable property—ample under the present law, to meet the necessities of the State. Should I be mistaken in this, however, and should the assessment returns disclose the fact that the revenues will not be sufficient to meet the current wants of the State, after paying the interest as provided for in the funding act, the General Assembly will certainly be called together in ample

"JOHN C. BROWN, Governor."

# St. Paul & Sioux City Railroad .-

(Returns for the Fiscal Year ended December 31, 1872.)

The Saint Paul and Sioux City Railroad, until October, 1872, had no through business. At that date the Sioux City & St. Paul Railroad, which connects with the St. P. & S. City RR. at St. James, was so far completed as to form a through line between St. Paul and Sioux City, 270 miles; connecting also at St. Paul with the Lake Superior & Mississippi Railroad 156 miles to Duluth, and at Sioux City with the Sioux City & Pacific Railroad and tho Dakota Southern Railroad. The distance between Duluth and Sioux City is 426 miles. These roads are of course not operated at a profit, and it was not expected that they would be at this early period of their existence. Their existence promotes settlement and development, and with these accessories and the through business which will now come to them the prospect is rapidly improving of their becoming paying establishments. The year 1872 has been a very severe one, and for four months this railroad was snow-bound. The earnings, however, increased over those of 1871 by \$53,815. The road is also in an unfinished state and requires additional rolling stock, to provide for which and for the payment of the company's floating debt, and for other purposes, the directors have determined to create \$400,000 additional perferred stock; to be known as "Fourth Series." This stock will bear a semi-annual interest of 5 per cent., payable Feb. 1 and Aug. 1 of each year, and be redeemable at par and interest at the pleasure of the company after Feb. 1, 1875. It is secured by a lien on 100,000 acres of land, and is only subordinate to the preferred and special stocks heretofore issued, and including the present issue, amounting to \$2,000,000. The company own a valuable land-grant from the State of Minnesota, amounting in nll to 829.954 acres.

## Sioux City & St. Paul Railroad.

(Returns for the Fiscal Year ended December 31, 1872.)

The Sioux City & St. Paul Railroad is a continuation of the St. Paul & Sioux City Railroad from St. James (121 miles S. W. from St. Paul), Minn., to Sioux City, Iowa, a distance of about 149 miles. It was completed to La Mars, on the Iowa Falls & the opinion.

Sioux City Railroad, in October last, and reached Sioux City over that road. About 26 miles from La Mars to Sioux City is yet under construction; but within the city the company have huilt several miles of railroad and terminal sidings for the present accommodation of their shops located therein. The road was opened by sections, and as it progressed was operated under the same management as the St. Paul & Sioux City Railroad, but at the expense of the S. C. & St. P. contractors. The two companies, indeed, are on friendly terms, and apppreciate the necessity of their continued unity of purpose, nor is it improbable that a permanent consolidation may be effected at an early period. In the construction of the road the counties traversed by it have contributed liberally towards its cost, and the States of Minnesota and Iowa have severally granted to the company large bodies of land. Of the total length 66 miles are in Minnesota, and 82.5 miles in Iowa.

## ROAD AND EQUIPMENT.

Equipment.—Locomotive engines, 9; passenger cars, 6; baggage, mail and express cars, 3; and freight cars, box, 131; platform, 93; stock, 4, and caboose, 4. Total revenue cars, 241; also construction and other cars, 30.

## OPERATIONS AND FISCAL RESULTS.

As the road during 1872 was run on account of the contractors, and chiefly used for carrying material and supplies, no accounts in relation to operations were kept by the company.

The Hannibal & St. Joseph Preferred Stock.—No. 215.

In the United States Supreme Court, Bailey vs. Hannibal & St. Joseph Railroad Company. Appeal from the Circuit Court for Missouri.—This was a bill brought by Bailey, as owner of certain preferred stock of the company, to enjoin it from paying a dividend on its common stock, unless he was allowed to share equally with the common stock, after being first paid a dividend of seven per cent on his preferred stock. This, he claimed, was the condition of a contract between him and the company, the consideration of which was assistance by him when the corporation was in an embarrassed condition. The court below decided that he was only entitled to share in any court below decided that he was only entitled to share in any surplus beyond seven dollars per share, which may be divided upon both classes of stock within the year, and dismissed the bill. This court affirm that deree. Mr. Justice Clifford delivered

Report of the Grand Trunk Railway of Canada.—The bllowing is the chief part of the directors' report for the last half of 1872:

Dec. half
of 1871.

The gross receipts npon the whole undertaking, including
£935,841...the Buffair and Champlain lines, have been.

The ordinary working expenses (heing at the rate
of 64.95 per cent, against 69.70 of the corresponding half of last year). £627,894

The renewals, etc., of the permanent way and works
712,724...in the half year debited to revenue. 165,399 Dec. half of 1872. £966,678 793,293 £222,617..Leaving an available balance earned in the half year of .... 43,540..Less amount of sundry expenditure as por revenue account. £173,385 £179,077
18,183..Deduct loss on American currency..... £173,385 21,195 £160,894 £149,190 To this sum of has to be added the balance earried from the net rovenue account of last half year of. £149,190 1,653 £150.843 17,890 £132,953 132,643 Balance carried forward..... £311

Comparing this half year with the corresponding period of 1871, the gross receipts show an increase of £31,337, or 3:35 per cent. There was an increase in the passenger receipts of £29,953, or 9:19 per cent, and in the freight receipts of £1,349, or 0:22 per cent. The total number of passengers carried was 984,525 against 961,432, and the quantity of freight was 797,935 against 789,231

The Canton Company and Union Railroad.—At a stockholders' meeting of the Canton Company it was resolved that the Board of Directors of the Canton Company be directed to endorse the bonds of the Union Railroad Company of Baltimore to the amount of \$600,000 in gold, on the execution by said Union Railroad Company of a mortgage to the Canton Company. It was announced that the bonds had all been negotiated by Brown, in currency. The balance was sold on private terms.

Shipley & Co., of London, through Messrs. Alexander Brown & Sons, of this city.

Boston Water Power Company.—The annual meeting of the stockholders of the Boston Water Power Company was held recently in Boston, Gen. J. S. Whitney in the chair. James P. Farley the Treasurer, submitted his annual report, which was accepted. From this it appears that the amount of cash on hand April 30, 1872, was \$5,212 07; loans on interest, \$314,574 20; balance of receivables, \$172,001 99; received from sewer assessments during the year, \$805 53; mortgage notes receivable, \$715,205 56; bills payable for money borrowed and notos given for filing, \$929,033 33. Disburscments for the year: For filing, to N. C. Munson, \$956,909 24; M. Hayes, \$5,000; salaries, \$9,000; legal expenses, \$4,262 90; taxes to State, \$14,118 80; interest and dividends, \$94,964 11; constructing Fairfield street sewer, \$13,549 99. The bills payable amount to \$700,000. The liabilities of the company amount to \$2,043,703 21; assets receivable, \$1,506,828 13; unfilled land, 9,456,172 square feet; filled land, 782,000 feet. The company has purchased during the year 226, 924 square feet of upland flats, and also the lease of the Trustees \$1,500,628 13; unfilled (and, 9,430,112 square feet, mied fame, 782,000 feet. The company has purchased during the year 226,924 square feet of upland flats, and also the lease of the Trustees of the Roxbury Grammar School, of land across West Chester Park. The company is under contract to fill Commonwealth avenue and Westchester Park to grade 18, and land on Newbury street to grade 12. Huntington avenue is nearly completed. Scrip of November 15, 1872, to the amount of \$515,000 is outstanding. The following gentlemen were chosen Directors for the ensuing year: John T. Clark, F. B. Wallace, M. T. Gardner, George Keyes, Edwin Tufts, S. W. Merrill, II. Edgarton. Edwin Tufts was chosen Clork of the Corporation. Mr. M. T. Gardiner of fered the following motion, which was adopted: That the Directors shall be, and by this vote of the stockholders they are, authorized if in their judgment the interests of the company will be thereby promoted, to receive in part payment for the land of the company hereafter to be sold, the stock of the company, ut such prices for the land and the stock as may be deemed for the interests of the stockholders. A portion of the land shall be sold in single lots when desired by any stock holders. when desired by any stock holders.

—It is stated that the £2,000,000 sterling mortgage of the New York Central & Hadson road was sold to the extent of three-
